INTERIOR INSPIRATION

A BUYER'S GUIDE

Determine your space

It is important to think about how you want your space to work for you. Consider the different elements you would like to incorporate such as an island, seating areas, a larder or breakfast pantry, a bar or coffee station. Are there architectural features that need special consideration?

Decide on your style

Use magazines and the internet to gather ideas on the sort of style you like. Visit www.holmetree.co.uk for ideas or visit the showroom. Consider colours you like, worktops, flooring, and cabinet styles as well as the practical elements that are going to make your kitchen a functional space. Appliances, sinks and taps are all designed to make life easier so explore the possibilities.

Book a design consultation

At Holme Tree, we ask our clients to book an appointment in advance as this ensures that they have a dedicated amount of time to thoroughly explore their ideas. We have over twenty years' experience in planning and designing rooms and will generate computer images to help you visualise your new space.

From this design, we can then prepare a quote. When we provide a quote, our pricing is transparent and includes all the elements of the project that we discuss at our meetings. Where extra costs are incurred, we discuss these with you and tell you what is included and what is not. We employ our own fitting team so our service always includes installation.

Our pricing includes more than just our furniture – we have a wealth of experience in managing a wide range of projects and our experience and expertise in coordinating and project managing work in listed properties, new builds, extensions and renovations is crucial to the smooth-running of the process.

BESPOKE FURNITURE

'Bespoke' is a frequently used word when describing furniture. While typically it means custom-made or individually created for a specific customer, to us it also means 'choice'. It means that we work in millimetres so that the cabinets fit your space perfectly. It also means a choice of colours. Using Farrow & Ball, Little Greene and other paint ranges to hand-paint our furniture provides an extensive library of colours.

Whatever the age or style of your property, our furniture is designed to complement your home and enhance your lifestyle.

Choice is also found in the range of appliances, sinks, taps, handles and worktops we offer.

You don't have to choose from a specific 'range'. Our furniture is made just for you – now that's bespoke!

The key to a well-organised home is practical but elegant storage. From laundry rooms, home offices, and libraries to serene bedrooms, Holme Tree furniture is designed to be functional as well as beautifully styled.

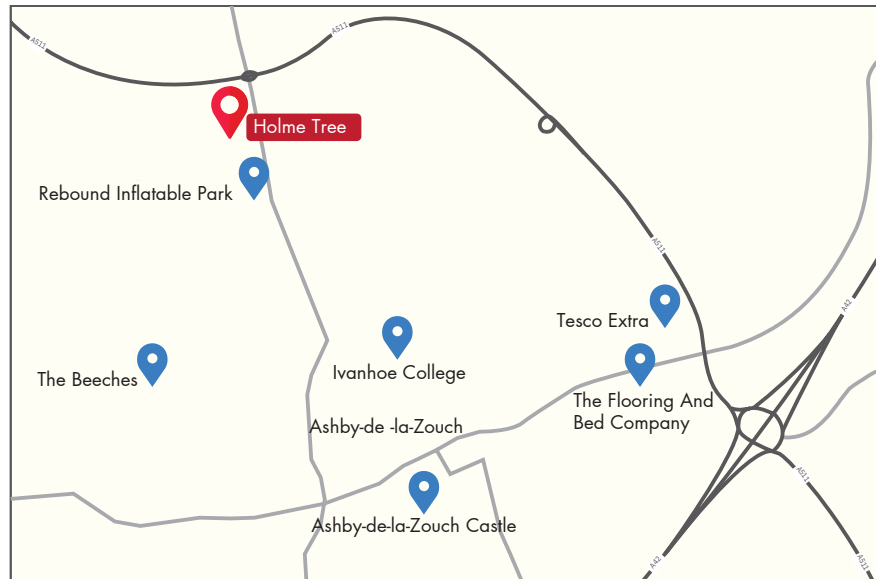

We love this ultimate home sports bar which creates a real statement and is the perfect way to display that sporting memorabilia.
