From expert design to our in-house installation team, we'll work closely with you to take care of everything, leaving you with a truly enviable home. Read on to discover expert advice, original ideas, and exceptional quality...

WHY CHOOSE HOLME TREE?

Since establishing the business in 2000, we have developed a strong team who are dedicated to creating the finest hand-crafted furniture to transform our clients' homes. During that time, we have built a wealth of experience. We know that your requirements are completely unique and that there isn't 'one size fits all'. We take the time to understand your needs and vision for your new space.

For 25 years, Holme Tree has been based in the Leicestershire market town of Ashby de la Zouch, in the heart of the National Forest. Our reputation has been built on a foundation of innovative design, expert craftsmanship, and, most importantly, the outstanding experience our clients have when working with us.

HANDCRAFTED IN ASHBY DE LA ZOUC

We take great pride in our factory workshop which is situated alongside our showroom. Fusing traditional cabinet-making skills with our continual investment in state-of-the-art machinery, each piece of furniture is crafted with precision and care.

Using the finest materials and finishes along with our meticulous approach guarantees exceptional quality. As all our furniture is made to measure, you can be sure it will fit your room perfectly. We'll tailor every detail to your lifestyle and vision, giving you full design freedom.

To uphold the highest quality standards from design through to completion, we have our own dedicated installation team. With their in-depth knowledge of our products, our expert fitters ensure your furniture is installed professionally, seamlessly, and on schedule.

"All the craftsmen arrived when they said they would, worked to an excellent standard and cleaned up afterwards."

"From the outset, the whole process has been a really exciting journey... The craftsmanship and skill of each component have been exceptional. We are very grateful for the input of every individual person who has been involved. Thank you too for all being so professional and generally a pleasure to have around."

YOUR STEP-BY-STEP GUIDE

Assess Your Space

It is important to think about how you want your space to work for you. Consider the elements you would like to incorporate such as an area for socialising, a larder or breakfast pantry, a bar or coffee station. You might find it useful to start by identifying specific things you would like to change about your current kitchen.

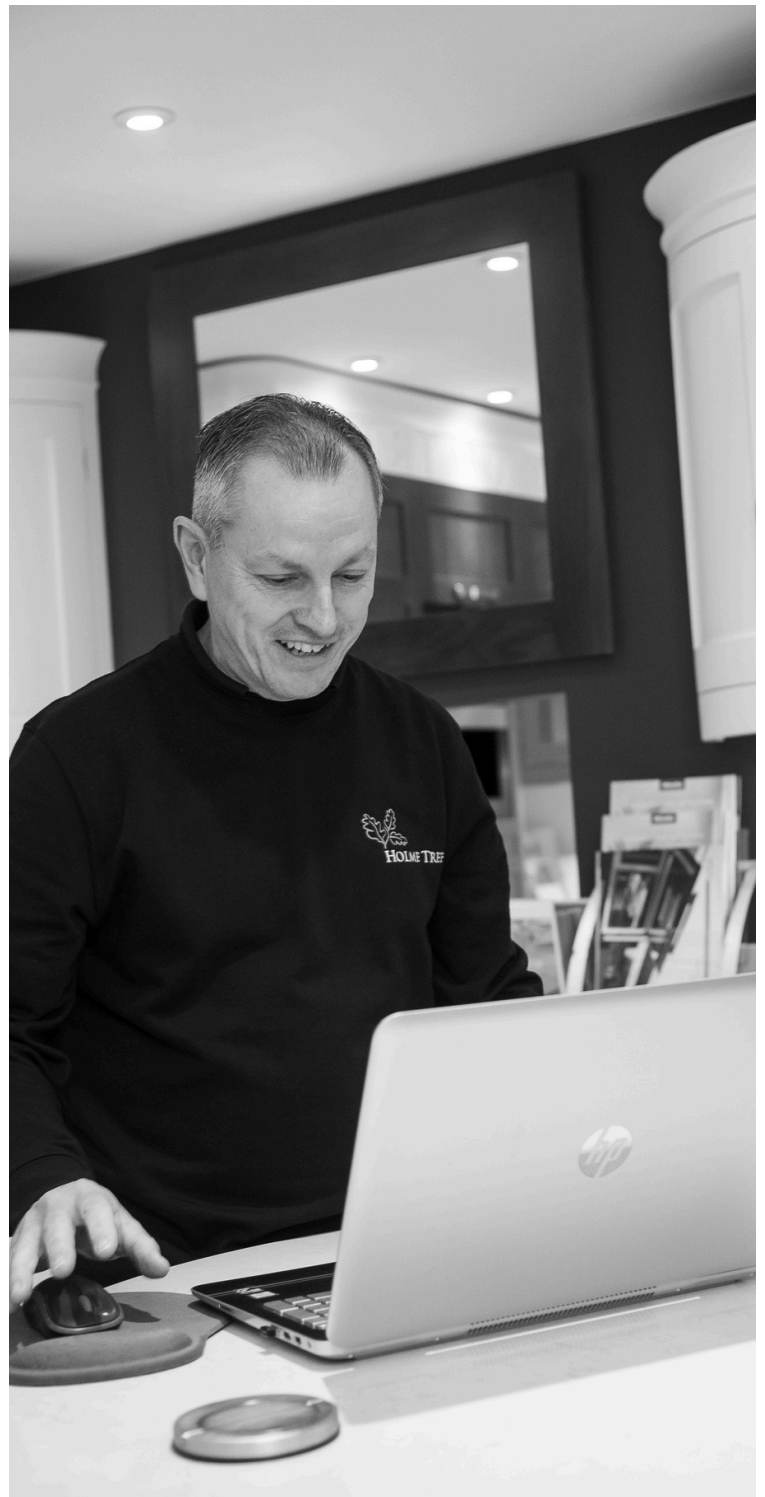

Find Design Inspiration

Visit www.holmetree.co.uk or visit our showroom for ideas. Use magazines and the internet to gather ideas on the sort of style you like. Consider colours you like, worktops, flooring, and cabinet styles as well as the practical elements that are going to make your kitchen a functional space. Appliances, sinks and taps are all designed to make life easier so explore the possibilities.

Book A Design Consultation

At Holme Tree, we believe every project should start with getting to know you and understanding your requirements. That's why we encourage all our clients to book an appointment to ensure we can dedicate plenty of time to thoroughly exploring your ideas.

With 25 years of experience, our team is here to support you every step of the way, providing guidance on design choices, materials, and layout options to help you create a space that works perfectly for you. We use computer imaging to bring your vision to life, helping you visualise the final design in detail.

Your Quote

Once the design is complete, we provide a clear and transparent quote that includes all elements previously discussed. Where extra costs are incurred, we ensure these are fully explained, outlining what is included and what is not, so there are no surprises.

Our service always includes fitting, which is carried out by our dedicated, in-house installation team.

Our pricing goes beyond just furniture. With 25 years of experience, we bring expertise in managing a wide range of projects, from listed properties and new builds to extensions and renovations. Our ability to coordinate and project-manage these complex undertakings ensures that your experience is as stress-free and seamless as possible.

BESPOKE FURNITURE

The word 'bespoke' is a term that is often used in the kitchen industry to describe designs that are tailored to you but constructed from standard size units. At Holme Tree, however, our furniture is bespoke in the truest sense of the word—it is designed and crafted entirely for you.

To us, 'bespoke' means choice. With Holme Tree by your side, you can personalise every design detail, ensuring your furniture complements your style and needs perfectly. Each piece is made with millimetre precision to fit your space seamlessly. Furthermore, you can select from an extensive palette of premium paints from renowned brands such as Little Greene and Farrow & Ball, allowing you to create a truly unique home.

FUSING OLD & NEW

We worked closely with our client's builder to prepare the space. Every step required meticulous care to preserve this stunning double-height, timber-framed, Grade 2 listed property—a space steeped in history but not designed for domestic use. To enhance the room's natural charm and counterbalance the small windows and dark timber beams, our clients opted for light-coloured cabinetry and illuminated display shelving. These thoughtful choices brightened the space while complementing its historic character.

A PLACE FOR EVERYTHING FURNISHING YOUR WHOLE HOME

The key to a well-organised home is practical but elegant storage. From practical laundry rooms, beautiful boot rooms, home offices and libraries to serene bedrooms and stylish dressing rooms, Holme Tree furniture is designed to be functional as well as beautifully styled.

We love this ultimate home sports bar which creates a real statement and is the perfect way to display sporting memorabilia.

Create a cosy yet organised living space and enjoy admiring your most treasured possessions with our beautiful bespoke media centres.

TAKE THE NEXT STEP

To maintain our high standards, we work on a limited number of luxury projects per year. If you are looking for outstanding craftsmanship and service and would like to engage our expertise for your home, we would be pleased to discuss your project further. Simply contact us for a no-obligation discussion in the first instance and then we would be delighted to book a design appointment for you so that we can begin the journey towards transforming your home.
